upcoming movies 2025 india: Global Perspectives on Indigenous Film and Literature

Amar Ramesh Wayal, A. P. Anupama, 2025-09-22 This edited volume comprehensively explores narrative survival in Indigenous film and literature, forging a literary and transitional approach to native writing. It navigates the evolution of Indigenous voices, spanning the oral tradition and literary forms from colonial times to the present. It covers a range of issues related to indigenous inequalities and diversities in film and literature. With chapters from global perspectives, including North America, Canada, New Zealand, and South Asia, it ensures an inclusive exploration of indigenous narratives. The diverse chapters address topics such as the aboriginal experience, residential school legacy, the invisible nation of Algonquins, tribal songs, decolonial futures, caste, survival narrative, trauma, and other marginalized groups such as low castes, linguistic minorities, and Adivasis (tribals). The book focuses on innovative concepts to understand the study of a particular indigenous group in isolation from others and more than the conventional comparative study of different indigenous groups. It deals with the challenges of achieving local indigenous rights and identities. It is a valuable resource for social science and humanities scholars, particularly for

indigenous scholars, development professionals and administrators interested in the issues related to social diversity and indigeneity in a global setting.

upcoming movies 2025 india: *The Subject of the Nation and his 'Others' in Hindi Cinema* MK Raghavendra, 2025-09-17 This book analyzes the representations of the subjects of Hindi cinema as a way of gaining insights into the hegemony of the upper-caste Hindu male in narratives of nationhood. Given that Hindi cinema has narrativized the nation after 1947, the book examines how these subjects were chosen and argues that they were upper-caste, Hindu and predominantly male. The author's analysis shows asymmetries in the constitution of the 'imagined nation' in the public consciousness. Women, the marginalized categories, and minorities were presented as 'others' with separate stories for the issues dealing with them—but distinct from that of the nation. Stories centered on women primarily highlight their position within society. In this context, the book argues that it is the male protagonist whose story mirrors that of the nation as allegory. A novel contribution to the field of Bollywood Studies, this insightful work will be of interest to those studying Hindi cinema and film studies, political science and history, as well as gender studies.

upcoming movies 2025 india: *The Maker of Filmmakers* Radha Chadha, 2025-09-15 When Jagat Murari, a young film student in post-war America, finds himself at the feet of one of cinema's true giants – Orson Welles – during the making of *Macbeth* in 1947, the lessons he absorbs on that set will shape not only his future, but also the future of Indian cinema. Returning to a newly independent India, Jagat goes on to build the Film and Television Institute of India (FTII) from the ground up. In *The Maker of Filmmakers*, Radha Chadha offers an intimate and meticulously researched portrait of her father – a celebrated documentary filmmaker – and the iconic film school he built. With uncanny consistency, FTII turned out top talent – the likes of Shabana Azmi and Jaya Bachchan, Adoor Gopalakrishnan and Subhash Ghai, and other cinema legends. His alumni became the leading actors, directors, cinematographers, sound designers and editors of Bollywood and beyond. What was his secret formula? With unprecedented access to Jagat's diaries, letters, personal papers and over 100 interviews with alumni and colleagues, Radha Chadha leads us behind the scenes, and into the mind of a visionary who reshaped Indian cinema, even as he grappled with its many challenges. upcoming movies 2025 india: *Empowering Indian Women Through Resilience* Abha Singh, Rahul Bhadouria, Sachchidanand Tripathi, Ritu Modi, Shashidhar Gupta, 2025-02-24 The book examines various aspects of women empowerment in South Asia, particularly in India. The term "empowerment" refers to women's liberation from social-economic restraints of reliance. Women worldwide actively work as leaders and establish new dimensions in all fields. Yet, in India, although women comprise around 50% of India's population, most stay economically dependent, and in most Indian villages and towns, women are still denied fundamental education. After more than 75 years of independence as a country, we need to take a long-overdue in-depth look at empowering women in India and how women empowerment should be a powerful tool for national development. This book aims to discuss the empowerment of women through examining the social and personal

challenges faced by women, as well as evaluating areas such as gender discrimination, education opportunity, and employment opportunity.

upcoming movies 2025 india: Media Travels Juan Llamas-Rodriguez, 2025-03-04 *Media Travels: Toward An Atlas of Global Media* fills a significant gap in global media scholarship by offering short, readable articles covering different types of media from around the world. Through careful and informed analysis, these eleven accessibly written chapters illustrate the particularities of different media practices and situate them within social, historical, and geographical contexts. Examples range from South African video games to Korean TV series popular in Latin America to Indigenous film and media from the US and Canada. upcoming movies 2025 india: Intimate Visualities and the Politics of Fandom in India Roos Gerritsen, 2025-10-01 In *Intimate Visualities and the Politics of Fandom in India*, Gerritsen explores the circulation of images of a movie star named Rajinikanth. Cities and towns in the south Indian state Tamil Nadu are consistently ornamented with huge billboards, murals and myriad posters featuring political leaders as well as movie stars. A selective part of these images is put up by their fan clubs. Tamil movie fans typically manifest themselves by putting up images of their star in public spaces and by generating a plethora of images in their homes. Gerritsen argues that these images are a crucial part of the everyday affective modes of engagement with family members and film stars but they are also symbolizing the political realm in which fans situate themselves. At the same time, Gerritsen shows how these image productions seem to concur with other visual regimes articulated in government restrictions, world class imaginaries and upper class moralities as presented on India's urban streets.

upcoming movies 2025 india: Nation, Nationalism and Indian Hindi Cinema Goutam Karmakar, Pippa Catterall, 2025-11-03 This book explores the complex relationship between Indian nationalism and Hindi cinema, examining how film serves as a crucial medium due to its visual narrative power and connections to traditional cultural forms including Parsi theatre, folk traditions, and mythological storytelling. While Hindi films have often been positioned as embodiments of

nationalism, they simultaneously present alternative, more inclusive, and liberal conceptions of national belonging. This collection investigates the multifaceted construction, dissemination, and reception of Indian nationalism across four decades of Hindi cinema, from the 1980s through the 2020s. The contributors analyze how Hindi cinema, as both a discursive and popular medium, not only portrays various forms of nationalism but also shapes the politics of film production through nation-building narratives and industry power dynamics. This volume demonstrates how films have served as mouthpieces for those in power, showcasing both majoritarian perspectives and critical challenges to hegemonic thinking. Covering a deliberately broad timeline and diverse genres—from war epics and sports dramas that exemplify muscular nationalism to biopics, comedy-dramas, and spy thrillers—this collection offers a nuanced examination of nationalist messaging across different periods of India's socio-economic development and political leadership. This book is essential reading for academics, researchers, and students in film studies, cultural studies, regional studies, and nationalism studies focused on Indian cultural landscapes. The chapters in this book were originally published as a special issue of *National Identities*.

upcoming movies 2025 india: Projecting Desire Tupur Chatterjee, 2025-01-07 How middle-class women transformed India's screen and exhibition industries Since the late 90s, multiplexes in India have almost always been located inside malls, rendering it impossible to inhabit one space without also inhabiting the other. Their prevalence coincides with a shift in the spectatorial imagination of India's mass audience—spaces that, for several preceding decades, had been designed for the subaltern male, but are now built for the consuming, globalized middle-class woman. By catering to the mutable desires and anxieties of a rapidly expanding and heterogeneous middle class, the mall-multiplex has radically altered the politics of theatrical space and moviegoing. *Projecting Desire* tells the story of this moment of historic transition as it played out across media industries, architecture and design, popular cinema, and public culture. Tupur Chatterjee highlights how the multiplex established a new link between media and architecture in the subcontinent, not only rewriting the relation between gender and urban space, but also changing the shapes of Indian cities. *Projecting Desire* locates the post-globalization transformation of India's screen and exhibition industries in a longer arc of ideas about urban planning and architecture, long mired in caste- and class-based gendered anxieties. It argues that the architectural mediations of India's moviegoing cultures are key to imagining, planning, and policing the contemporary media city. Chatterjee integrates industrial and organizational ethnography, in-depth interviews, participant observation, discourse and textual analysis, and archival work with spatial and urban histories. Focusing on these new meccas of leisure and entertainment, *Projecting Desire* tracks the understudied nexus between new media architectures, cultures of public leisure, and popular cinema in the Global South.

Chatterjee, Bill Ashcroft and Shirley Chew, explore a range of themes that extend from the re-mapping of mythology and history to reassessing the globalised India of today. Together, they contend that the

current body of work of Indian-English literature is so varied and vibrant that it can no longer be dismissed as derivative or dispossessed. Instead, they regard this new corpus of writing to be a major aspect of contemporary Anglophone literature. Ultimately, the contributors contend that the current body of work in Indian-English fiction is so varied and vibrant that it can no longer be dismissed as derivative or dispossessed, or even as mere postcolonial 'writing back' or compensatory national allegory.

upcoming movies 2025 india: Power of Movies | How They Shape Our Society Dheeraj Sharma, 2025-06-28 In last few decades, Bollywood movies are often responsible at typifying an image of India by mocking temples and priests, portrays professors in top institutions as incompetent, showing teachers as buffoons, politicians as wicked, police as merciless, bureaucrats as narrow-minded, judges as unjust, and speaking Hindi language as parochial. Have you ever wondered why Bollywood movie songs and dialogues continue to be in Urdu? Why is the promiscuous woman often given a Christian name, Sikhs reduced to comic relief, and working women shown drinking and smoking? Why have courtroom oaths on the Bhagavad Gita disappeared, and the Indian flag disappeared from movie backdrops? This book seeks to answer these important questions. The book also compares Bollywood and Hollywood movies, showing how the latter has created a yearning for the American way of life. Films influence public opinion and behaviour. If that weren't true, movies like *Aandhi* (1975), *Kissa Kursi Ka* (1977), and *Black Friday* (2005) wouldn't have faced bans. Cinema shapes society, and Bollywood must recognise its power and the responsibility that comes with it.
