**upcoming movies 2025 imdb: Powell and Pressburger** Ellen Z. Whitton, 2025-11-10 This book offers a new perspective on the renowned filmmaking duo The Archers - Michael Powell and Emeric Pressburger - through its examination of their engagement with history and its representation on screen. Usually celebrated for their vibrant aesthetics and bold narratives, Powell and Pressburger have rarely been explored through the lens of realism or historiophoty. This study addresses this gap through the in-depth analysis of three of their war films: The Spy in Black (1939), The Life and Death of Colonel Blimp (1943), and The Battle of the River Plate (1956). It

demonstrates that the pair were committed to fair historical representations and authenticity, and should be considered as early 'filmmaker historians' for their contribution to public understandings of the past. To interrogate this aspect of their partnership, this book introduces a new methodological framework grounded in the structuralist theories of Roland Barthes and Brian McFarlane, while influenced by Hayden White and New Cinema History. It balances close textual analysis with investigations into production context and reception history, offering a more holistic approach to understanding how authenticity was constructed on screen and received by audiences. Through these case studies, the book highlights how *The Archers* employed research practices – like archival work, expert consultation, and on-location visits – that mirror those of traditional historians. In doing so, they crafted historically rich films that shaped public memory, demonstrating filmmaking practices that are now common among contemporary filmmakers in that genre. Beyond reassessing this aspect of *The Archers*' legacy, this methodology offers a practical framework for analysing and creating historical authenticity on screen.

**upcoming movies 2025 imdb: *Creole Cinema: Memory Traces*** Louise Hardwick, 2025-02-10 *Creole Cinema: Memory Traces* is the first book written in English on Francophone Caribbean cinema. It establishes a postcolonial, Caribbean, and fundamentally Creole theoretical framework for the interpretation of works which the author defines as Creole cinema, through the lens of Patrick Chamoiseau's concept of the Trace-mémoire. In so doing, it examines the remarkable multisensory forms of memory expression performed by Creole cinema, drawing on work on intercultural cinema and haptic visuality by Laura Marks, and on Hamid Naficy's insights into accented cinema. Initially undertaking a general survey which provides the most comprehensive account of Francophone Caribbean cinema to date, the critical framework is then developed in a series of case-studies which analyse *Biguine* (2004) directed by Guy Deslauriers with a screenplay by

Chamoiseau; Nord-Plage (2004) directed by José Hayot, again with Chamoiseau as author of the screenplay; Rue Cases-Nègres (1983, Sugar Cane Alley) directed by Euzhan Palcy; and Nèg maron (2005) directed by Jean-Claude Barny. Each case study establishes how the Trace-mémoire manifests in a complex haptic multisensory set of dynamics which can be discerned both in individual works and across a wider range of films considered, in order to access and retrieve – here with a particular emphasis on processes of creative intuition – subaltern and marginalised memories and histories. The study works in a consistently interdisciplinary manner across areas including Francophone Studies, Film Studies, Postcolonial Studies, World Cinema, and Black Studies, and represents a timely intervention on urgent debates around black representation in cinema.

**upcoming movies 2025 imdb: A New Way of Seeing** Michael Sarnowski, 2025-06-04 A New Way of Seeing considers the poetry of five writers—Louis Simpson, Keith Douglas, Richard Hugo, Howard Nemerov, and Randall Jarrell—whose work draws on their activities as soldiers in World War II. Basing his examination on extensive primary-source research, Michael Sarnowski identifies distance, both literal and figurative, and traumatic memory as two interconnected elements of how these poets internalized the war and made sense of the events they witnessed. The book is structured on a gradient related to each poet's proximity to combat, as the chapters in turn focus on an infantryman (Simpson), a tank commander (Douglas), a bombardier (Hugo), a pilot (Nemerov), and a stateside flight instructor (Jarrell). Sarnowski relies on a wealth of archival material overlooked by previous scholarship, including poem drafts, correspondence, flight logs, and personal belongings. The conclusion revisits notions of legacy and representation by assessing factors that contributed to the early labeling of World War II soldiers as a "Silent Generation," in contrast to the outpouring of poetry published during and following the First World War. By exploring how poets processed their wartime experiences, A New Way of Seeing offers a stark reminder of why it remains vital to recognize the physical, mental, and psychological consequences endured by veterans.

**upcoming movies 2025 imdb: Dashing to the End** Eric Monder, 2025-05-15 Born Alfred Reginald John Truscott-Jones, Welsh American actor Ray Milland (1907-1986) appeared in more than 135 theatrical releases between 1929 and 1985 and on radio, television, and the stage, while also becoming a film director; Milland's extensive canon across such a period is remarkable, especially considering his lack of formal training, his belated start in show business in his late twenties, and the fact he only lived to age seventy-nine. Perhaps best remembered for his Oscar-winning performance as the tortured alcoholic in Billy Wilder's *The Lost Weekend* (1945) or his outstanding collaboration with Alfred Hitchcock in *Dial M for Murder* (1954), there is much more to Milland's life and career than the few films that elevated him from star to icon. Despite his prolific and successful career, *Dashing to the End: The Ray Milland Story* is the first comprehensive biography of the star. Milland's personal and professional trajectory epitomize quintessential Hollywood lore: the British army soldier-turned-actor who went from unknown, struggling bit player to Oscar-winning star to aging, scandal-haunted "has-been" to comeback character actor to present-day cult figure. Using interviews with Milland's costars and colleagues, as well as research from several major archives, author Eric Monder brings into sharp relief both the positive and negative aspects of the Hollywood film and television industries and paints a well-rounded portrait of

this complex man and artist.

**upcoming movies 2025 imdb:** *Ida Lupino, Forgotten Auteur* Alexandra Seros, 2024 The acting career of legendary star Ida Lupino is well known, but there has been little analysis of her directorial career. She was one of the few female directors in Classical Hollywood and the only one with membership in the Directors Guild of America between 1948 and 1971. Like Orson Welles, her career was notable in transitioning from acting to directing first in film and then in television, in addition to helping to create and run the production company The Filmakers [sic]. Her films were notably about women navigating difficult positions in society, dealing with controversial issues such as rape and bigamy. Nevertheless, she was the first female director of a noir film, *The Hitch-Hiker*, which is a suspenseful tale of two motorists taken hostage by a serial killer in the Southwest. Alexandra Seros, a filmmaker herself, examines Lupino's career with a focus on her directorial roles and how she navigated this as a woman, as well as a wife and mother, in male-dominated Hollywood. She explains how Lupino began directing and formed The Filmakers before providing a close analysis of three of her films (*Not Wanted*, *Never Fear*, and the aforementioned *The Hitch-Hiker*) and examining how she navigated the shooting and negotiated with the censors to be able to tell the stories she wanted to tell. Seros then details Lupino's transition to television and her taking the director's reins in that medium as well. Lupino directed episodes in a wide variety of genres, but specialized in Westerns and thrillers. Even as the press and the studios tried to focus on her femininity as a dutiful wife and loving mother, she often refused to play along and be coded as feminine in this way. Seros analyzes three of Lupino's directed episodes, comparing them with similar work done by noted male directors Nicholas Ray, Robert Aldrich, and Alfred Hitchcock, stressing Lupino's efficient, effective work in finishing the shows on time and within budget. She finishes by arguing that Lupino was a new kind of auteur, whose collaborative family approach to filmmaking was far ahead of its time--

**upcoming movies 2025 imdb:** *I'd Just As Soon Kiss a Wookiee* Greg Carter, 2025 In a dedicated study of the Star Wars trilogies spanning from 1977 to 2019, Greg Carter contextualizes the popular franchise and its fandom through a critical mixed race studies framework. The project primarily examines the five-decade Star Wars phenomenon historically since, as Carter states, the films mirror the dominant beliefs in American society. Just as many have assumed the movies lack racial issues, some have claimed that the United States has reached a post-racial state where racial difference is irrelevant. *I'd Just As Soon Kiss a Wookiee* applies theoretical frameworks posited by Stuart Hall and bell hooks to this analysis of Star Wars as a portrait of post-civil rights era race relations in the United States. Though the franchise has perpetuated toxicity, racism, and sexism, each of which have roots in longstanding currents of American thinking, Carter showcases the perspectives of minority fans, intellectuals, and performances at a time when many recognize their centrality in the meaning of Americanness. With the surplus of spinoffs in the Star Wars franchise, Carter limits his study to the three trilogies of the Skywalker Saga. In the original trilogy, Carter looks at the racial ambiguity present in Darth Vader's cyborg body as well as the whiteness inherent to Princess Leia and the tropes incorporated in her narrative. While examining how the prequel trilogy built the Star Wars world, the study hones in on the family-narrative structure in addition to the actors of color introduced. The chapters that focus on the sequel trilogy rely on a variety of minority geek voices to reveal their underappreciated perspectives, using these perspectives to understand the fandom ships and the amplified animosity after *The Last Jedi* (2017). The author conducts this analysis all while asking: what is the story of Star Wars, especially for those outside of the white cis-male audience?--
