best tv shows 2025 february: Sanctioned Savagery Michael Oriard, 2025-09-09 American football was a violent sport from its beginning as a college game in the 1870s and 1880s, in part because learning how to deal with the pain and violence, to take it, made men out of college boys. Michael Oriard, former NFL linebacker and professor emeritus of English, shows us that this fundamental belief persisted for more than a century, until signs of chronic traumatic encephalopathy (CTE) were found in Pittsburgh Steelers' center Mike Webster's brain. Suddenly, the cost of taking it could mean long-term damage not just to the body but also to the brain. Without anyone knowing it, that risk had soared since the 1950s and 1960s, when the hardshell plastic helmet became the primary weapon for blocking and tackling, as taught by a new generation of college coaches, led by the University of Alabama's Bear Bryant. In this cultural history of football at nearly all levels--high school, college, and pro--Oriard traces the perennial tension between health and culture regarding football as reflected in what the public read in newspapers, magazines, and online. Through examining how we once felt and how we now feel about the game, Oriard challenges us to grapple with the possibility that football might be too violent, in an intolerable way.

best tv shows 2025 february: Entertained or Else Tina Kendall, 2025-09-18 This book considers the complex and often contradictory relations that are forged between boredom and everyday media use in the twenty-first century and demonstrates how networked media have developed new technical means of capitalizing on boredom's state of suspension to make it into a source of value creation. Focusing on the discursive, technological, and affective structures that encourage users to be entertaining and to remain entertained, the book analyses how boredom has been increasingly instrumentalized as both an individual mood and a wider structure of feeling that drives participation across media networks. It identifies the range of cultural techniques for codifying, classifying, sensing, and pre-empting boredom, as well as those that teach users, counter-intuitively, to embrace boring media as a means of coping with the intensities of always-on

existence. However, if boredom is positioned in a digital network culture as a feeling that keeps driving us back to our social media feeds, it is important to ask how else it might operate. While the technological affordances of computational media have put pressure on our ability to conceive of boredom as a radical challenge to digital capitalism, this book attempts to think about the potential that might still be embedded in boredom's capacity to temporarily suspend or to neutralize dominant structures of attention and affect. Building on the work of Giorgio Agamben, Byung-Chul Han, Roland Barthes, and from historical accounts of boredom and entertainment, the book provides a new understanding of boredom in the context of networked media.

best tv shows 2025 february: The Tiger Leading the Dragon Shelley Rigger, 2021-06-01 How did the once-secretive, isolated People's Republic of China become the factory to the world? Shelley Rigger convincingly demonstrates that the answer is Taiwan. She follows the evolution of Taiwan's influence from the period when Deng Xiaoping lifted Mao's prohibitions on business in the late 1970s, allowing investors from Taiwan to collaborate with local officials in the PRC to transform mainland China into a manufacturing powerhouse. After World War II, Taiwan's fleet-footed export-oriented manufacturing firms became essential links in global supply chains. In the late 1980s, Taiwanese firms seized the opportunity to lower production costs by moving to the PRC, which was seeking foreign investment to fuel its industrial rise. Within a few years, Taiwan's traditional manufacturing had largely relocated to the PRC, opening space for a wave of new

business creation in information technology. *The Tiger Leading the Dragon* traces the development of the cross-Taiwan Strait economic relationship and explores how Taiwanese firms and individuals transformed Chinese business practices. It also reveals their contributions to Chinese consumer behavior, philanthropy, religion, popular culture, and law.

best tv shows 2025 february: *Survivor* Joseph J. Darowski, Kate Darowski, 2025-05-20 Celebrate the 25th anniversary of *Survivor* with a look back at one of history's most popular and long-running reality shows. Premiering in 2000, *Survivor* altered the landscape of network television from its first season, popularizing reality shows for audiences in the 21st century and quickly growing to a semi-annual release slate that has resulted in more than 46 seasons and hundreds of contestants. Over twenty years later, the series remains popular and a ratings hit, maintaining a devoted fanbase even as the television landscape has evolved and shifted to streaming. In *Survivor: A Cultural History*, Joseph J. Darowski and Kate Darowski analyze how the iconic CBS show revolutionized television and has adapted and changed across decades of production. They explore the creation of the series and its surprising emergence as a ratings juggernaut, the evolution of gameplay for both the producers and the players, the series existence as a self-proclaimed "social experiment", and much more. While the basic premise of the series has remained the same—survivors are marooned in the wild with few supplies and must vote someone out at a weekly tribal council with the goal of being the sole survivor to win \$1 million—there are notable differences from where the game began to where it is now. From stylistic changes in the presentation of the show to new twists in the game rules, the transformations from season 1 to the present reflect real life, keeping the show fresh amid a stream of new reality competition shows. *Survivor: A Cultural History* details these cultural shifts while highlighting *Survivor*'s place as one of the most impactful television shows of this century. Featuring an overview of the key players and a

ranking of the must watch-seasons, this is an essential guide for fans both new and old.

best tv shows 2025 february: Vera Miles Christopher McKittrick, 2025-03-25 Captivating, talented, and beautiful, Vera Miles was destined for fame. Within a few years of making her way to Hollywood in 1949, she starred in such films as *The Rose Bowl Story* (1952), *Tarzan's Hidden Jungle* (1955), and *Wichita* (1955). Her frequent television performances so enthralled Alfred Hitchcock that he chose her to be Grace Kelly's successor for roles in *The Wrong Man* (1956) and the iconic film *Psycho* (1960). She also starred in John Ford's *The Searchers* (1956) and *The Man Who Shot Liberty Valance* (1962). Miles's illustrious film and television career spanned nearly fifty years in Hollywood, and yet she is still considered one of the most unsung film actresses of her era. *Vera Miles: The Hitchcock Blonde Who Got Away* is the first full-length biography of the talented performer's life and extensive body of work. Integrating historical interviews and archival materials, author Christopher McKittrick reveals the struggles Miles faced as a working mother in the 1950s and 1960s and why she was compelled to step away from the lead role in *Vertigo*—a choice that irrevocably sundered her relationship with Hitchcock. Yet Miles would go on to appear in nearly two hundred television shows, including *The Twilight Zone*, *The Fugitive*, *Ironside*, and *The Virginian*, as well as numerous Disney films. She would work with some of the most talented actors in Hollywood—John Wayne, Bob Hope, and James Stewart among them—and would receive a star on the Hollywood Walk of Fame. By highlighting Miles as the lead in her own story, McKittrick amplifies the voice of this remarkable and prolific actress who was far more than just a footnote in Hitchcock's film legacy.
