best anime 2025 august: Climates. Habitats. Environments. Ute Meta Bauer, 2022-04-05 Artists and writers go beyond disciplinary boundaries and linear histories to address the fight for environmental justice, uniting the Asia-Pacific vantage point with international discourse. Modeling the curatorial as a method for uniting cultural production and science, *Climates. Habitats. Environments.* weaves together image and text to address the global climate crisis. Through exhibitions, artworks, and essays, artists and writers transcend disciplinary boundaries and linear histories to bring their knowledge and experience to bear on the fight for environmental justice. In doing so, they draw on the rich cultural heritage of the Asia-Pacific, in conversation with international discourse, to demonstrate transdisciplinary solution-seeking. Experimental in form as well as in method, *Climates. Habitats. Environments.* features an inventive book design by mono.studio that puts word and image on equal footing, offering a multiplicity of media, interpretations, and manifestations of interdisciplinary research. For example, botanist Matthew Hall draws on Ovid's *Metamorphoses* to discuss human-plant interpenetration; curator and writer Venus Lau considers how spectrality consumes—and is consumed—in animation and film, literature, music, and cuisine; and critical theorist and filmmaker Elizabeth Povinelli proposes "Water Sense" as a geontological approach to "the question of our connected and differentiated existence," informed by the "ancestral catastrophe of colonialism." Artists excavate the natural and cultural DNA of indigo, lacquer, rattan, and mulberry; works at the intersection of art, design, and architecture explore "The Posthuman City"; an ongoing research project investigates the ecological urgencies of Pacific archipelagos. The works of art, the projects, and the majority of the texts featured in the book were commissioned by NTU Centre for Contemporary Art Singapore. best anime 2025 august: Chasing the Pearl-Manuscript Arthur Bahr, 2025-03-11 A unique study of the only physical manuscript containing Sir Gawain and the Green Knight as both a material and literary object. In this book, Arthur Bahr takes a fresh look at the four poems and twelve illustrations of the so-called "Pearl-Manuscript," the only surviving medieval copy of two of the

best-known Middle English poems: Pearl and Sir Gawain and the Green Knight. In Chasing the Pearl-Manuscript, Bahr explores how the physical manuscript itself enhances our perception of the poetry, drawing on recent technological advances (such as spectroscopic analysis) to show the Pearl-Manuscript to be a more complex piece of material, visual, and textual art than previously understood. By connecting the manuscript's construction to the intricate language in the texts, Bahr suggests new ways to understand both what poetry is and what poetry can do.
