**upcoming movies 2025 wiki: Power of Movies | How They Shape Our Society** Dheeraj Sharma, 2025-06-28 In last few decades, Bollywood movies are often responsible at typifying an image of India by mocking temples and priests, portrays professors in top institutions as incompetent, showing teachers as buffoons, politicians as wicked, police as merciless, bureaucrats as narrow-minded, judges as unjust, and speaking Hindi language as parochial. Have you ever wondered why Bollywood movie songs and dialogues continue to be in Urdu? Why is the promiscuous woman often given a Christian name, Sikhs reduced to comic relief, and working women shown drinking and smoking? Why have courtroom oaths on the Bhagavad Gita disappeared, and the Indian flag disappeared from movie backdrops? This book seeks to answer these important questions. The book also compares Bollywood and Hollywood movies, showing how the latter has created a yearning for the American way of life. Films influence public opinion and behaviour. If that weren't true, movies like Aandhi (1975), Kissa Kursi Ka (1977), and Black Friday (2005) wouldn't have faced bans. Cinema shapes society, and Bollywood must recognise its power and the responsibility that comes with it.

**upcoming movies 2025 wiki: Amateurs!** Joanna Walsh, 2025-09-23 The story of how you created internet culture and why it matters Since the nineties, platforms have invited users to create in return for connection. From blogs to vlogs, tweets to memes: for the first time in history, making art became the fundamental form of communication. What started as fun soon became currency, something vital to finding friends, work, and love. Then, as 'meatspace' job security eroded, online

creativity became work itself. Now an internet presence is no longer optional, platforms increasingly charge users. Whatever it is we're creating online, it isn't amateur anymore. But is it art? In this scintillating philosophical history of the internet, Joanna Walsh, author of *Girl Online*, examines how and why creativity became the price of digital existence.

**upcoming movies 2025 wiki: Swarms, Viral Writing, and the Local** Carl Whithaus, 2025-04-15 Swarms, Viral Writing, and the Local examines the social and rhetorical dynamics around emerging writing technologies. Carl Whithaus argues that these dynamics work across networked publics as patterns of behavior and ways of interacting through and with multimodal texts. This rhetorical analysis of the production and reception of born-digital rhetoric shows the ongoing and evolving impacts of online public discourse that can lead to bad restaurant reviews or the subversion of democracy. It is a networked process that gains significance because of the interplay and tensions between the global and the local. As these texts are created, distributed, received, and then recreated and shared again in viral ways, different messages resonate across media ecologies. Whithaus documents how emerging social dynamics shape—and are shaped by—digital writing, reading, and distribution technologies.

**upcoming movies 2025 wiki: A City on the Edge** Dennis R. McBride, 2025-09-30 Some years

change the course of history. 2020 was one of those years. As a pandemic, lockdowns, and an economic downturn convulsed America, police shootings of George Floyd and other African Americans touched off the largest protest movement in U.S. history. At the same time, mass shootings soared; many states saw unprecedented increases in gun-related incidents. Churning in the background were a bitter presidential election campaign and counterprotests opposing public health measures and the election result itself. Mayors of cities big and small struggled with some of these challenges, but Dennis McBride, the new mayor of a mid-sized, mostly-White suburb bordered by the majority-minority City of Milwaukee—called the heartland of the heartland—faced them all. His city, a microcosm of a troubled America, teetered on the verge of anarchy while playing a crucial role in the presidential election. *A City on the Edge* is the gripping story of how he and other mayors have steered America's hometowns through a storm of personal and political divisions. Though the chaos of 2020 has gradually subsided, it is still reverberating in the nation's economy, politics, and psyche. The changes sparked by the events of that historic year continue to vex mayors and their communities. Americans and their leaders are searching for a new equilibrium. That balance will be found first in our hometowns. *A City on the Edge* offers a path forward.

**upcoming movies 2025 wiki: Mission Unaccomplished** Alan Nadel, 2025-10-07 An analysis of how post-9/11 war movies changed from following soldiers on specific missions to chronicling war as a day-to-day occupation. In 2003, the United States began a war in Iraq without a mission. Instead of fighting to restore peace—the traditional objective of warfare—servicemembers faced the grim reality that there was no goal. Lacking even certainty as to who was the enemy, soldiers discovered that their task was simply to survive. *Mission Unaccomplished* explores how Hollywood grasped the experience of Iraq from the perspective of US soldiers, reinventing the war film in the process. Historically, films such as *Saving Private Ryan* valorized the goals of war by chronicling missions that unambiguously contribute to the defeat of the enemy and the restoration of peace. But in *The Hurt Locker*, *American Sniper*, *Green Zone*, and other recent dramas, soldiers just try to outlast the chaos. Dramatizing the aimlessness of the war, events occur in random order, and soldiers have no sense of how their actions contribute to victory or peace. Looking to recent WWII movies such as *Dunkirk* and *Hacksaw Ridge*, which use this same cinematic vocabulary to position soldiering as merely a deadly job to be endured, Alan Nadel argues that the disillusionment of Iraq has influenced cinema broadly, inspiring a newly critical war film genre.

**upcoming movies 2025 wiki: An American Girl Anthology** Justine Orlovsky-Schnitzler, KC Hysmith, 2025-05-15 Contributions by Mary Berman, Mary M. Burke, Abigail C. Fine, Juliette Holder, KC Hysmith, Mackenzie Kwok, Esther Martin, Hannah Matthews, Janine B. Napierkowski, Justine Orlovsky-Schnitzler, Samantha Pickette, Sheena Roetman-Wynn, Rebekkah Rubin, Marissa J. Spear, Tara Strauch, Cary Tide, and Laura Traister *An American Girl Anthology: Finding Ourselves* in the Pleasant Company Universe turns American Girl dolls—and the ever-growing ecosystem surrounding them—inside out. Editors Justine Orlovsky-Schnitzler and KC Hysmith, along with an expansive list of contributors across multiple disciplines and within different research areas, explore Pleasant Company (American Girl's parent corporation) and the social and cultural impact the dolls and broader American Girl universe continue to have for generations of American consumers through thoughtful and fun essays. This collection serves as an ode to the democratizing power of the internet and the intoxicating power of nostalgia, while also looking toward the future as the eldest American Girl fans become parents themselves. It is also a critical account of the ways in which American Girl has shaped senses of self-worth and hopes for the future, securing a base of lifelong consumers, and also serves as a love letter to the kids we collectively used to be. Along the way, readers will take seriously American Girl's influence and place within larger cultural conversations. They will find essays focusing on topics as diverse as food and historical recipes in American Girl publications, the advent of "tag yourself" memes, the struggle to find authentic and long-lasting Asian American representation within the pages of the American Girl catalog, and the enduring power of *The Care and Keeping of You* as a resource for finding joy in our bodies.

**upcoming movies 2025 wiki:** *Wartime cinema, Englishness and propaganda* Ina Habermann,

2025-09-30 This book provides a fresh analysis of the wartime work of Michael Powell and Emeric Pressburger and their team 'the Archers'. It argues that in their earlier work, Powell and Pressburger should be seen as middlebrow storytellers whose stories explore national identity in times of war. Their wartime work is discussed in four phases: the first phase covers their contributions to the 'phoney war', the second traces their engagement with the 'people's war'. The third phase sees the Archers move beyond propaganda, towards melodramas of Englishness. The fourth phase dramatizes post-war preoccupations with an increasing focus on memory and trauma. The book also looks at Pressburger's later work, including his two published novels *Killing a Mouse on Sunday* and *The Glass Pearls*.

**upcoming movies 2025 wiki:** Kashmir: Beyond Bullets and Blood KHRITISH SWARGIARY, 2025-05-01 In *Kashmir: Beyond the Bullet - My Witness to the Unseen War*, the author invites us into the misty valleys of Kashmir—"a land where mountains cradle both serenity and strife"—to reveal how decades of violence have scarred both the landscape and its people, yet have never been cured by force alone. Recounting the shock of Pulwama in 2019, when a suicide bomber killed forty-four paramilitary officers, and earlier horrors at Uri and Pahalgam, the narrative shows how each atrocity is seized by politicians, diplomats, and the media as fuel for election campaigns, diplomatic tit-for-tats, and nationalist pageantry—from "surgical strikes" and treaty suspensions to fiery parliamentary debates—while the valley's real wounds fester unseen. Across the Line of Control, Kashmir's tragedy is mirrored by reciprocal accusations and strategic posturing, turning bereaved families into symbols in an international game of blame and reprisal. Through deeply personal reflections, the author argues that every militant once bore the same hopes and traumas as any other Kashmiri youth, and that simply "killing terrorists" treats only symptoms, not the underlying grievances. Drawing on analyses—from military think tanks to on-the-ground reports—the book issues a manifesto for breaking the cycle: genuine dialogue with Kashmiri communities, political reforms, investment in education and mental health, and the courageous choice to see every human life as more than a statistic. Only by confronting the "hidden currents" of fear and resentment, and by planting hope instead of bullets, can Kashmir finally find a lasting peace.

**upcoming movies 2025 wiki:** Monstrous Beings and Media Cultures Jessica Balanzategui, Allison Craven, 2025-10-01 *Monstrous Beings and Media Cultures* examines the monsters and sinister creatures that spawn from folk horror, Gothic fiction, and from various sectors of media cultures. The collection illuminates how folk monsters form across different art and media traditions, and interrogates the 21C revitalization of folk as both a cultural formation and aesthetic mode. The essays explore how combinations of vernacular and institutional creative processes shape the folkloric and/or folkloresque attributes of monstrous beings, their popularity, and the contexts in which they are received. While it focuses on 21C permutations of folk monstrosity, the collection is transhistorical in approach, featuring chapters that focus on contemporary folk monsters, historical antecedents, and the pre-C21st art and media traditions that shaped enduring monstrous beings. The collection also illuminates how folk monsters and folk horror travel across cultures, media, and time periods, and how iconic monsters are tethered to yet repeatedly become unanchored from material and regional contexts.

**upcoming movies 2025 wiki:** The Real Jaws Rachel Lee Perez, 2025-08-30 Explores the 1916 New Jersey shark attacks, their impact on shark fear, and how media shaped harmful misconceptions. In the Summer of 1916, a series of shark attacks along the New Jersey shore would send shockwaves across its otherwise peaceful beach towns. Spanning a terrifying two weeks, including the deaths of nearly five people, these attacks would officially cement an innate fear of sharks that humans have felt since the beginning of time. Although initially kept under wraps by the tourism industry, these attacks would ultimately plaster the front pages of newspapers across the United States and even overseas. As the news spread, the line between fact and fiction blurred, reshaping our cultural and scientific understanding of the beasts of the ocean. It was the 1916 shark attacks that would establish our modern-day misconstrued perception of sharks as evil, man-eating

monsters, and would later inspire the film *Jaws*, which would perpetuate the same harmful narrative. *The Real Jaws* takes an in-depth look at each one of the attacks and how they instilled a centuries-long fear of the ocean's apex predator. It explores the various theories explaining why these attacks may have occurred and the probability of something like this happening again. And finally, it analyses the way the harmful misconceptions derived from films like *Jaws* have redefined humanity's relationship with sharks, leading humans to become the predators and sharks to become the prey.

**upcoming movies 2025 wiki: Negative Aesthetics and Political Collapse in Eastern European and Balkan Cinema** Zoran Samardzija, 2025-07-18 Negative Aesthetics and Political Collapse in Eastern European and Balkan Cinema examines the theme of political collapse in select contemporary Eastern European and Balkan art cinema and documentaries from the late eighties to the present. Engaging with debates in Marxism and contemporary film theory about political aesthetics, the book centers around the question of whether we can imagine possible futures through negative aesthetics, which are skeptical of cinema's ability to reproduce reality in a comprehensive and unmediated manner. In particular, it analyzes examples of ambiguous art cinema and related hybrid documentary modes in order to invite spectators to rethink how we understand and represent the unique experiences of living through the collapse of authoritarian communism and the transition to neoliberal capitalism. Negative Aesthetics and Political Collapse ultimately argues that the skepticism about political change and representing history found in these films forms an original mode of utopian thinking. In other words, their negativity about their own artistic autonomy is the very thing that allows them to hint at possible futures that are unrepresentable because they exist outside of the frameworks of contemporary geopolitics and our dominant understandings of cinematic aesthetics. Redefining how we understand the intersections between geopolitics, art cinema aesthetics, and film theory, the book presents a unique synthesis of film and political theory that attempts a new understanding of cinematic aesthetics. As such, it will interest scholars of film theory, global art cinema aesthetics, regional studies of Eastern Europe and the Balkans, and political science.

**upcoming movies 2025 wiki: The Politics and Sociology of Silent Comedy Films** Richard W. Waterman, 2025-05-19 Comedies were among the first films ever made, and comedy played a critical and often overlooked role in the early development of cinema. This original book holistically examines the political and sociological dimensions of silent comedy films and the motion picture industry at the turn of the 20th century. Richard Waterman takes a unique social science approach to the cinematic ecosystem and its development during this era, studying the wider context – the interconnected social, political, economic, and technological movements and forces – that shaped film production, distribution, and consumption in this pivotal period in the history of film and culture. These include moral standards and censorship, class, racism, antisemitism, sexism, and the global film market. Additionally, the book analyzes specific films in-depth to mine their themes, social context, and impact. Bridging the humanities and social sciences, this is a distinctive and valuable contribution to the study of early cinema.
